

VIDEO WORKSHOPS

To meet the needs of the busy horse rider, Cherry Tree Equine are offering people the opportunity to participate in a lesson, which will be videoed and then a session where the video footage is reviewed.

You will be given a copy of your lesson on DVD to take away with you, as well as exercises to assist you and your horse. These exercises will be able to be viewed on the Cherry Tree Equine YouTube Channel.

At the Video Workshops, participants will have a private lesson with Michelle in the morning for one hour. After lunch, all participants will sit together and watch each other's videos played back as part of a helpful and positive discussion of how each rider is progressing and areas that could be improved.

We recommend this option for groups of four or more people to ensure that each rider is able to learn from each other.

The cost for this service is \$220 per person. This includes the instruction, the group discussion and the DVD. If the workshop is at "Greenhills" it will also include morning and afternoon tea.

Please enquire if you are interested in booking into a Video Workshop.
